YEARLY MINT SETS OF AMERICAN COINS

A yearly Mint Set consists of the Cent, Nickel, Dime, Quarter and Half Dollar struck in all three mints in any given year. A full set, therefore, consists of fifteen coins. However, in a few years, some of the mints didn't strike all of the coins. The following sets of coins are all in brilliant Uncirculated condition. National Coin page number 461-A will hold a complete Mint Set of one year. This page is priced at 80 cents. A similar lucite holder is \$5.00.

1954		See box below

1954—THE FINAL MINT SET—GET IT NOW! In March of 1955 the San Francisco Mint suspended its coining operations and will strike no more coins. This means that the 1954 mint set is the last complete set of 15 coins and contains the last full set of coins from the San Francisco Mint. This set is in great demand and will most likely appreciate in value in years to come. Future Mint Sets will come only from the Philadelphia and Denver Mints. The set of 15\$6.50

AND NOW! THE 1955-S COINS

Before the San Francisco Mint discontinued its coining operations, relatively small numbers of cents and dimes were struck. No other coins were or will be struck. These cents and dimes are now for sale as follows:

CENTS, 1955-S (44,610,000 struck)
Price .15 each - 10 Pieces \$1.00

DIMES, 1955-S (18,510,000 struck)
Price .40 each - 10 Pieces \$3.00

In the past, coins with such a small coinage record have kept increasing in value through the years. (The 1950-S dime, 20,440,000 struck, now sells for \$2.75 each in mint condition.) The future value of these 1955-S coins is thus self-evident.

UNITED STATES FRACTIONAL CURRENCY

These Notes, the face value of which is less than 1 Dollar, were made by the United States Government during and shortly after the Civil War to alleviate the shortage of coins which were hoarded. They are still redeemable at full face value by the Government, and are quite scarce today.

COIN RINGS

With these rings you can convert coins into articles of coin jewelry, without damaging the coins. These rings have a reeded edge to simulate the edge of a coin. The coin is inserted into the ring and held in place by means of a screw. There is a loop on each ring for suspension of the coin on a chain, pendant and so forth.

The National Coin Album was designed and patented over twenty years ago. Over the years constant improvements have been made in construction, material and layout. Keeping your coins in this booklike form will give your collection order and compactness. Whenever your collection is displayed you are assured of complete protection from finger-marks and tarnish which result from actual handling of coins. Both obverse and reverse of the coins may be seen through sections of transparent slides which cover each row of openings. These sections slide out from the edge of the page by a slight friction of the fingers (see illustration). After the coin is inserted the slide is returned to its original position. Each page is made of heavy chipboard faced with tough cover stock in a pleasing tan color. The edges are bound with brown cloth tape. The sturdy construction of these pages and binders will withstand years of use.

NATIONAL COIN ALBUM

Large and Small Pages are available—PRINTED or PLAIN. Printed pages have the dates or title inscribed below each opening. The plain pages are for the use of collectors who prefer to arrange their coins in some different sequence and to do their own lettering. The plain pages may also be used for foreign coins by arranging the coins according to size.

PRICE LIST OF THE POPULAR, GREEN COIN ALBUMS

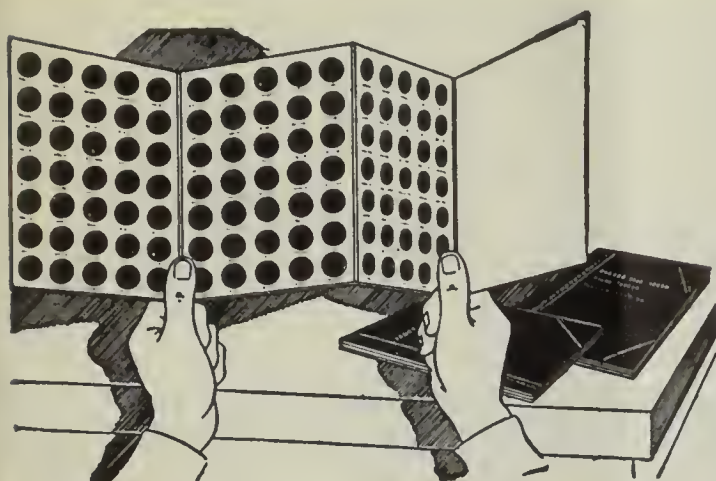

The twenty-four different U. S. Coin Albums listed below have been especially made for use in housing the coins most widely collected.

In style and design they have been manufactured along the same lines as the more expensive loose leaf Coin Albums except that each row of openings has only one transparent slide, which can be moved by friction of the fingers toward the outer edge of the page. These albums are sturdily constructed of heavy dark green cover stock, attractively designed with portrait and title, and are

5½ x 8 inches in size. The date, mint mark and number of pieces struck are printed under each opening. The \$.75 albums have 2 pages; the \$1.50 albums have 4 pages.

PAPER MONEY ALBUMS

May be used for both American and foreign notes.

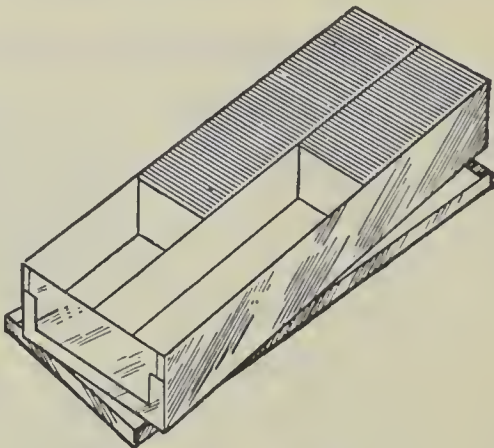

A NEW CURRENCY ALBUM. In response to a great need, this unique album for paper money has just been devised. For the first time, a collection of currency can now be kept in the same standard fashion as coins. These currency pages are the same size as the small National Coin pages and will fit into the National Coin Binders, so that your coin and currency collections can now be kept side by side in companion volumes. 10 pages will fit into 1 binder. Each page contains 6 heavy acetate envelopes for large size notes, arranged in an overlapping flip-over manner. An economical and money saving album.

Price per page..... \$1.00
Binder for 10 pages..... 2.00
